OD-12%, PCP29852, DIN02245211, CFIA PRODUCT: CODE: OD12

SECTION 01: IDENTIFICATION

OD-12%, PCP29852, DIN02245211, CFIA Product identification..... Product code.....CHEMICAL FAMILY.... **OD 12**

Sodium hypochlorite solution, 10-11% w/w. NSF STD60-MUL97mg/L. Alkaline Hypochlorite Solution is used as an oxidizing and Recommended use..... bleaching agent. . For industrial, institutional, swimming pool uses. Food plant use. For use in industrial recirculating cooling water systems. For municipal water treatment of sewage and industrial effluent and for sanitization. Use for sanitization and disinfection. Brewery

pasteurizers. LAVO

Manufacturer by..... 11900 Boul. Saint-Jean-Baptiste

Montréal, QC, H1C 2J3

CANADÁ 1-800-361-6898

Business hours..... 8:00AM - 4:30PM.

24 HOUR EMERGENCY NUMBER:..... CANUTEC 24-Hour Number: 613-996-6666.

SECTION 02: HAZARD IDENTIFICATION

Hazard classification..... Serious Eye Damage/ Eye Irritation Category 1. Skin corrosion Category 1. Specific Target Organ Toxicity Single Category 3. Respiratory tract irritation Category 1. Acute aquatic toxicity Category 1. Chronic aquatic toxicity Category 1.

LABEL ELEMENTS:

Signal word..... DANGER.

Hazard statements..... H290 May be corrosive to metals. H314 Causes severe skin burns and eye damage. H335

May cause respiratory irritation. H400 Very toxic to aquatic life. H410 Very toxic to aquatic

life with long lasting effects.

Precautionary statements..... P260 Do not breathe dust/fume/gas/mist/vapours/spray. P264 Wash thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P271 Use only

outdoors or in a well-ventilated area. P273 Avoid release to the environment. P280 Wear protective gloves/protective clothing/eye protection/face protection. P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting. P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with

water/shower. P363 Wash contaminated clothing before reuse. P304+P340 IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing. P310 Immediately call a POISON CENTER or doctor/physician. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P391 Collect spillage. P501 Dispose of contents/container to

an approved waste disposal plant.

SECTION 03: COMPOSITION / INFORMATION ON INGREDIENTS						
CHEMICAL NAME AND SYNONYMS	CAS#	WT. %				
Sodium Hypochlorite Sodium Hydroxide	7681-52-9 1310-73-2	10-11 0.5-1.5				

SECTION 04: FIRST-AID MEASURES

Remove victim to fresh air. If not breathing, if breathing is irregular or if respiratory arrest Inhalation..... occurs, provide artificial respiration or oxygen by trained personnel. Get immediate medical attention. Call a poison center or physician.

Immediately hold eyelids open and flush with water for at least 15 minutes. Check for and

remove any contact lenses if easy to do. Consult a physician.

Immediately flush skin with plenty of water for 15 minutes. Remove contaminated clothing Skin contact..... and wash before reuse. Consult a physician.

PRODUCT: OD-12%, PCP29852, DIN02245211, CFIA

SECTION 04: FIRST-AID MEASURES

Call IMMEDIATELY a poison centre or a doctor. Do not induce vomiting or give anything by Ingestion..... mouth to an unconscious person. Rinse out mouth with water. Acute symptoms/Effects Eyes:.... Causes eve burns. Causes eve irritation. May cause severe irritation damage in the mouth, throat and stomach. Symptoms may Ingestion:.... include abdominal pain, vomiting, burns, perforations, bleeding and eventually death. Causes severe burns. Causes skin irritation. Direct skin contact may cause skin burns, Skin:..... deep ulcerations and possibly permanent scaring.

Inhalation of high concentrations of fumes or mists may cause severe irritation and Inhalation:.... corrosive damage to the nose, throat and upper respiratory tract.

Prolonged or repeated contact may cause drying, cracking and defatting of the skin. Delayed symptoms/Effects..... General advice..... Consult a physician. Show this safey data sheet to the doctor.

SECTION 05: FIRE-FIGHTING MEASURES

Suitable extinguishing media..... Use fire-extinguishing media appropriate for surrounding materials. Use Water spray, Alcohol-resistant foam, Dry chemical or Carbon dioxide.

Do not use dry chemical extinguishing agents that contain ammonium compounds. Unsuitable extinguishing media..... Special protective actions for fire-fighters. Firefighter should wear proper protective equipment and seft contained breathing apparatus with full face piece operated in positive pressure mode. Move containers from fire area if safe to do so. Use water to cool fire exposed containers.

May include and are not limited to:. Chlorine; Hydrogen chloride gas; Oxygen; Sodium Specific hazards arising from the chemical dioxides.

SECTION 06: ACCIDENTAL RELEASE MEASURES

All persons dealing with clean up should wear the appropriate protective equipment Personnal precautions..... including self contained breathing apparatus.

Protective equipment..... Use personnel protective equipment.

Emergency procedures..... Restrict access to area until completion of clean up. Evacuate personnel to safe areas.

Ensure clean up is conducted by trained personnel only. Do not touch and walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation.

CODE: OD12

Environmental precautions.....

Ensure spilled product does not enter drains, sewers, waterways, or confined spaces. If necessary, dike well ahead of the spill to prevent runoff into drains, sewers, or any natural

waterway or drinking supply. Prevent further leakage or spillage if safe to do.

Methods and materials for containment and Stop leak if you can do so without risk. Contain and absorb spilled liquid with non cleaning combustible, inert absorbent material (e.g. sand), then place absorbent material into a container for later disposal. Flush with water. Do not flush into surface water or sanitary sewer system. Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required. Small spills may be absorbed with non-reactive absorbent and placed in suitable covered, labeled containers. Contact emergency services and supplier for advice. Never return spills in original containers for re-use.

SECTION 07: HANDLING AND STORAGE

Precaution for safe handling..... Use good industrial hygiene practices in handling this material. Do not eat, drink or smoke when using this product. Use in well ventilated areas. Do not get in eyes, on skin or on clothing. Avoid inhalation of mists/vapours/fumes. Wash thoroughly after handling. Keep

> container tightly closed. Keep out of reach of children. Protect from sunlight. Keep container tightly closed. Store in

Condition for safe storage..... a cool, dry and well ventilated area. Do not store near acids.

<30°C. Do not freeze. Storage temperature.....

SECTION 08: EXPOSURE CONTROLS / PERSONAL PROTECTION

INGREDIENTS T	ACGII TWA		OSHA PEL		NIOSH REL
Sodium Hypochlorite N	lot available	Ceiling: 2mg/m3	2mg/m3	Not available	Not available
Sodium Hydroxide N	lot available	2mg/m3	2mg/m3	Not available	Not available
ACGIH TLV:		nerican Conference of Councilonal Safety and I			

Occupational Safety and Health Administration - Permissible Exposure Limits. Immediately Dangerous to Life or Health. NIOSH IDLH:.... Appropriate engineering controls..... Use under well-ventilated conditions or with respiratory protection.

PRODUCT: OD-12%, PCP29852, DIN02245211, CFIA

SECTION 08: EXPOSURE CONTROLS / PERSONAL PROTECTION

Personnal protection equipment (PPE)..... As required by employer. Complete suit protecting agains chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous

substance at the specific workspace.
Wear safety glasses with side shields or goggles. Eye / Face protection:....

Skin protection:.... Wear protective gloves. Gloves must be inspected prior to use.

Respiratory protection:.... Use appropriate respiratory protection if there is the potential to exceed the exposure limit(s). Use a full face respirator with multi-purpose combination or Wear self contained

General hygiène considerations..... Avoid breathing vapor or mist. Avoid contact with skin, eyes and clothing. Remove soiled

clothing and wash it thoroughly before reuse. Upon completion of work, wash hands before eating, drinking, smoking or use of toilet facilities. Do not eat, drink, smoke or use

CODE: OD12

cosmetics while working with this product.

SECTION 09: PHYSICAL AND CHEMICAL PROPERTIES

Clear, pale yellow liquid. Translucent. Appearance, physical state.....

Colour..... Yellow to greenish.

Odour..... Chlorine odor.

Odour threshold (ppm)..... No information available.

Melting point / Freezing point (°C)..... -30°C to -20°C. Boiling point (°C)..... 96 to 120°C. Flammability.____ Not applicable. Upper/Lower Flammability or explosive ... Not applicable.

limits

Flash point (°C)..... Not applicable. Auto ignition temperature (°C)..... Not available. Decomposition temperature..... Not available.

pH..... >12.5.

Not applicable. Soluble in cold water.

Partage coefficient n-octanol/water (log)... Not available.

Vapour pressure (mmHg)..... < 2.3 kPa (17.5 mm Hg @ 20°C).

1.10-1.25 g/mL. Heavier than air. Relative Vapour Density (AIR=1)..... Refractive Index..... 7.0-8.0.

Not available. VOC %.....

SECTION 10: STABILITY AND REACTIVITY

Reactivity..... React vigorously with acids. Reacts with amines and ammonia to form explosively unstable compounds. May develop chlorine if mixed with acidic solutions. Contact with some reactive metals may produce flammable hydrogen gas. Corrosive to metals.

Stable under the recommended storage and handling conditions prescribed. Chemical stability.....

Possibility of hazardous reactions..... Hazardous polymerization cannot occur.

LC50

Conditions to avoid..... Avoid heat and open flame. Exposure to sunlight. Do not mix with other chemicals. Avoid contact with the following materials: Urea, Ammonia, Amides, Amines, Nitrogen containing compounds, Combustible materials, Organic materials, Metals, Reducing Incompatible materials.....

materials, Hydrocarbons materials, Alcohols, Ether. Contact with Magnesium, galvanized Zinc, Tin, Chronium, Brass and Bronze generates explosive Hydrogen. May include and are not limited to: Hydrogen chloride, Chlorine gas, Sodium dioxide.

Hazardous decomposition products......

SECTION 11: TOXICOLOGICAL INFORMATION

Inhalation Rat >10.5mg/kg; Oral Rat: 8200mg/kg; Oral Mice: 5800mg/kg; Sodium Hypochlorite Dermal Rat:>2000 mg/kg; Dermal Rabbit

>10000mg/kg;

Oral Rat 300-500mg/kg; Dermal Rabbit Sodium Hydroxide Not available

>2000mg/kg;

LD50

Acute toxicity

INGREDIENTS

Skin corrosion/irritation..... Causes skin burns. Serious eye damage/Irritation.... Causes eye burns.

Respiratory or skin Sensitivition. May cause respiratory tract irritation or chemical burns.

Sensitization..... Not available. Mutagenicity..... Not available.

Carcinogenicity..... No evidence of carcinogenic effects.

Teratogenicity..... Not available. Reproductive toxicity..... Not available.

PRODUCT: OD-12%, PCP29852, DIN02245211, CFIA

SECTION 11: TOXICOLOGICAL INFORMATION

Contains material which my cause damage to the following organs:upper respiratory tract, Target organs.....

skin, eye, lens of cornea and stomach.

Specific target organs toxicity - Single exposure

Specific target organs toxicity - Repeated

exposure

Chronic effects on humains.....

and toxicological characteristics

Aspiration hazard.....

Safe handling of this material on a long term basis should emphasize the prevention of all contact with this material to avoid any effects from repetitive acute exposures.

CODE: OD12

Symptoms related to the physical, chemical Symptoms may include stinging, tearing, redness, swelling and blurred vision. Permanent eye damage including blindness could result. Burning sensation, Cough, Wheezing, Laryngitis, Shortness of breath, Spasm, Inflammation and Edema of the Larynx,

Inflammation and Edema of the bronchi and Pneumonary edema.

Not available.

Not available.

Not available.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity data, Sodium Hypochlorite:..... Acute 96Hrs LC50 Rainbow trout: 0.030 - 0.070 mg/L.

Acute 48Hrs LC50 Daphnia magna:0.032 - 0.036 mg/L. Ecotoxicity data, Sodium Hydroxide:...... Acute 96Hrs LC50 fish Guppy Poecilia reticulata:196 mg/L

Chronic 96Hrs NOEC fish Guppy Poecilia reticulata:56 mg/L.

Not available. Bioaccumulation potency..... Not available. Mobility in soil..... Not available. Persistance and degradability..... Not available.

Other adverse effects..... Very toxic to aquatic life with long lasting effects.

SECTION 13: DISPOSAL CONSIDERATIONS

Disposal methods..... Do not empty into drains, dispose of this material and its container at hazardous or special

waste collection point. Observe all local, provincial/state and federal environmental

regulations.

SECTION 14: TRANSPORT INFORMATION

UN1791 HYPOCHLORITE SOLUTION more than 7% available chlorine, Class 8, PG III. TDG Classification.....

DOT US: Department of Transport US......

IMDG: International Maritime Dangerous.

Goods

IATA: International Air Transportation Association

Limited quantity exception per TDG Regulations Part 1.17(2) -Containers not more than 5L. UN1791 HYPOCHLORITE SOLUTION more than 7% available chlorine, Class 8, PG III. Limited quantity exception per TDG Regulations Part 1.17(2) -Containers not more than 5L. UN1791 HYPOCHLORITE SOLUTION more than 7% available chlorine, Class 8, PG III. UN3082 Environmentally hazardous substance liquid, n.o.s. (Sodium Hypochlorite), Class

9, PG III . Limited quantity exception per TDG Regulations Part 1.17(2) -Containers not more than 5L

UN1791 Class 8 PG III HYPOCHLORITE SOLUTION more than 7% available chlorine. Limited quantity exception per TDG Regulations Part 1.17(2) -Containers not more than 5L.

SECTION 15: REGULATORY INFORMATION

WHMIS Classification..... This product has been classified in accordance with the hazard crireria of the Controlled

Products Regulations and this document contains all the information required by the Controlled Products Regulations. Class E: Corrosive Material. Class C: Oxidizing Material. Class D1B: Materials Causing Immediate/Serious Effects - Toxic Material. Class D-2B:

Toxic material Causing other toxic effects.

Pest Management Regulatory Agency,

Read the approved PCPA label prior to using or handing the pest control product. This chemical is a pest control product registered by Health Canada PMRA and is subject to certain labelling requirements under the Pest Contol Products Act. These requirements differ from the classification criteria and hazard information required for GHS-consistent safety data sheets, Following is the hazard information required on the pest control product label: DANGER. Corrosive for eyes and skin.

SECTION 16: OTHER INFORMATION

F0007-0165. PCP DIN.....

Disclaimer:.... The information in the Safety Data Sheet is offered for your consideration and guidance

when exposed to this product. LAVO expressly disclaims all expressed or implied warranties for the accuracy or completeness of the data contained herein and assumes no responsibilities for any involved damages by above data. Products users have to do their own tests to establish the applicability of the information for a specific use of the product.

SDS data does not apply to use with any other product or in any other process. Regulatory Affairs
